Critical Questions

Each page could be it's own content type. It is displayed in edit mode, and recalled by author
complete list: view of content by author

Create My Plan

A) Starts with 10 City Council questions, which you must get so many correct before you can proceed.

Question - then answer is shown after submission. This might be done with just Javascript

AJAX? or Content Type?

B) our budget has been reset to 0 and you are now ready to create your plan. Go to the Responses page to review the responses revealed in your analysis and add the most appropriate ones to your plan.

Your current plan is shown below. When you are satisfied with your choice of responses, you can submit your plan to the mayor.

FLAG Module? for flagging responses to be included in plan

Submit My Plan

Receive letter from the Mayor

Custom module - compare flags against standard - create report
